

Objective: To innovate, create and produce various design projects that expand the horizon of what can be built and created whilst working with talented individuals to learn valuable industry skills.

Education:	Savannah College of Art and Design (2009-2010) Professional Master of Architecture	ACS Hillingdon, London, England (2002 - 2004) High School Diploma
	Savannah College of Art and Design (2005-2009) Bachelor of Fine Arts, Architecture	Universtiy of the Arts London, Chelsea(2003-2004) Drawing courses
	Tamdem Escuela Internacional, Madrid, Spain (2004) Spanish Language and Cultural studies	Universtiy of the Arts London, Camberwell(2003-2004) Metal Shop Classes

Skills:	Drafting	Parametric Modeling	Photoshop -	Revit -	AutoCAD -	Blender -	MS Office Suite -
	3D modeling	Rapid Prototyping & Fabrication	Illustrator -	Ecotech -	Rhino -	Microstation -	EarthCam -
	Hand Modeling	Laser cutting, CNC Routing, 3D Printing	InDesign -	Pheonics VR -	Grasshopper -	Sketchup -	

Experience: Vickery Construction and Remodeling - Savannah, GA (Jan. 2012 - March 2012)
Worked as a Site Manager and Carpenter on various renovation projects. Responsibilities included design assistance, speaking with clients about design options and time constraints, demolition, framing, electrical wiring, kitchen and bathroom tiling, finishing work and multiple site management.

May River Contracting - Bluffton, SC (Aug. 2011 - Oct. 2011)
Hired on to assist with site management on a multimillion dollar residential project for the self made billionaire Zdenek Bakala. Work responsibilities included working closely with the Master Builder, Project Superintendent and Project Manager on the delivery of materials, site organization and site documentation.

Freelance Design - Savannah, GA (2011)
Worked with AAA Parking and Hilton Hotels on design iterations and construction documents to accommodate valet parking offices in to an existing Hilton Hotel in downtown Savannah.

Low Country Collaborative - Savannah, GA (2011)
Produced construction documents and design work for a residential expansion in Columbia, SC.

Wooden Sheep - Savannah, GA (fall 2010)
Invited to design an entrance installation for the Wooden Sheep gallery and shop. The installation focused on combining the methodologies between architecture and fibers to create a threshold experience for guest to walk through as they enter the gallery.

Side Walk Arts Festival - Savannah, GA (spring 2010)
Invited along with a colleague to design and build an architectural installation for the 2010 Side Walk Arts Festival hosted by the Savannah Collage of Art and Design. The installation focused on using advanced computational modeling and CNC routing to create an undulating structural form that invited people to explore the space it created inside and out.

TEDx Creative Coast - Savannah, GA (summer 2010)
Invited to re-install the installation created for the Side Walk Arts festival for the TEDx Creative Coast lecture series. The installation was re-constructed inside the lobby for the duration of the event.

Cato Residence Renovations - Savannah, GA (2005-2009)
Custom restoration and historical preservation of a Victorian town house. (Interior and exterior carpentry, electrical installation and finishing)

Languages: English (first language)
Spanish (conversational level)
